STOP UNWANTED MAIL

USPLK Employees Federal Credit Union only contracts with vendors that we have checked out and believe that there is a benefit to our members. We never want to flood you with unwanted mail.

However, if you are receiving mailings that originate from the Credit Union and you want to stop them. PLEASE contact the Credit Union office and request that we “opt-you out” of any third party mailing. We will be happy to do this.

What You Should Know About Preventing Identity Theft and Fraud

Identity (ID) theft and fraud is what happens when someone obtains your personal “identifying” information and uses it without your permission. By the time you learn about the theft or fraud, it may be too late to stop the financial damage. For example, if an ID thief were able to collect several pieces of identifying information about you, usually including your Social Security number (SSN), he or she could impersonate you to obtain a loan for a new car. By the time you receive the first bill for the car (or a notice that your bill is past due), the thief and car could be long gone — and you are stuck with the payments.

Identity thieves use many ways to steal personal information, from snooping through mailboxes or trash to posing as legitimate businesses on the phone. Follow these tips to help guard against ID theft or fraud:

- **Documents:** Before discarding documents containing personal data, including credit card offers you receive in the mail, first shred them. Never dispose of credit card receipts, rental car receipts or bank deposit slips in public trash receptacles.
- **Mail:** When traveling, have your home mail held at the post office (or have a friend pick it up) so personal data doesn't sit in your mailbox where an ID thief could nab it.
- **Checks:** Limit the amount of personal data you print on your checks; less is safer.
- **Information:** Guard your SSN, mother's maiden name and account numbers. Don't carry your SSN in your wallet or purse. Ask your providers if you can place passwords on your bank, telephone and credit card accounts (and change the passwords periodically). Be stingy about giving out personal information to others, whether by phone, e-mail or on the Internet. Don't answer personal-data-related questions over the phone unless you initiated the conversation, especially if the person on the phone is soliciting you.

Check your financial records frequently to be sure no fraudulent activity is occurring in your name.

- Periodically ask for a copy of your credit report and check it for any unusual activity.
- Balance your checkbook monthly, watching for unauthorized withdrawals.
- Read the transactions shown on your credit card statements. Be sure you made or authorized every purchase or cash advance shown.
